PROFILE

I am Omonboyev Shahzod . I was born on December 7, 2007. I am interested in programming. I started learning programming in 2021.In 2022 , I first programmed my telegram bot. In those days I learned new programming languages like python, js and html css sass . These days I am successful.

I completed these courses.I offer a range of services including development of Telegram bots, websites and web applications. With my expertise, I can help you create customized digital solutions that meet your specific needs. Need a Telegram bot to automate tasks? Or web app. Write to me.

EDUCATION

IT

Nov 2022

Gennis , Gazanlkent

I taught programming languages in Gennis campus, among them python for backend. I got a lot of experience here

COURSES
